

T4HD

# Technology 4 Human Development

Summary Presentation

**Humanity needs to realize that only by truly understanding our interdependent nature will we be able to solve the challenges we face**

# **Technology**

**Is the tool capable of transforming our reality**

# **Purpose**

**Is the light that will guide us in the right direction**

# MISSION

**MISSION** – To support the creation of the appropriate conditions that will enable the existence of a society model that is sustainable, equal and collaborative. Our mission is to provide the technological tools that will unleash Human Potential

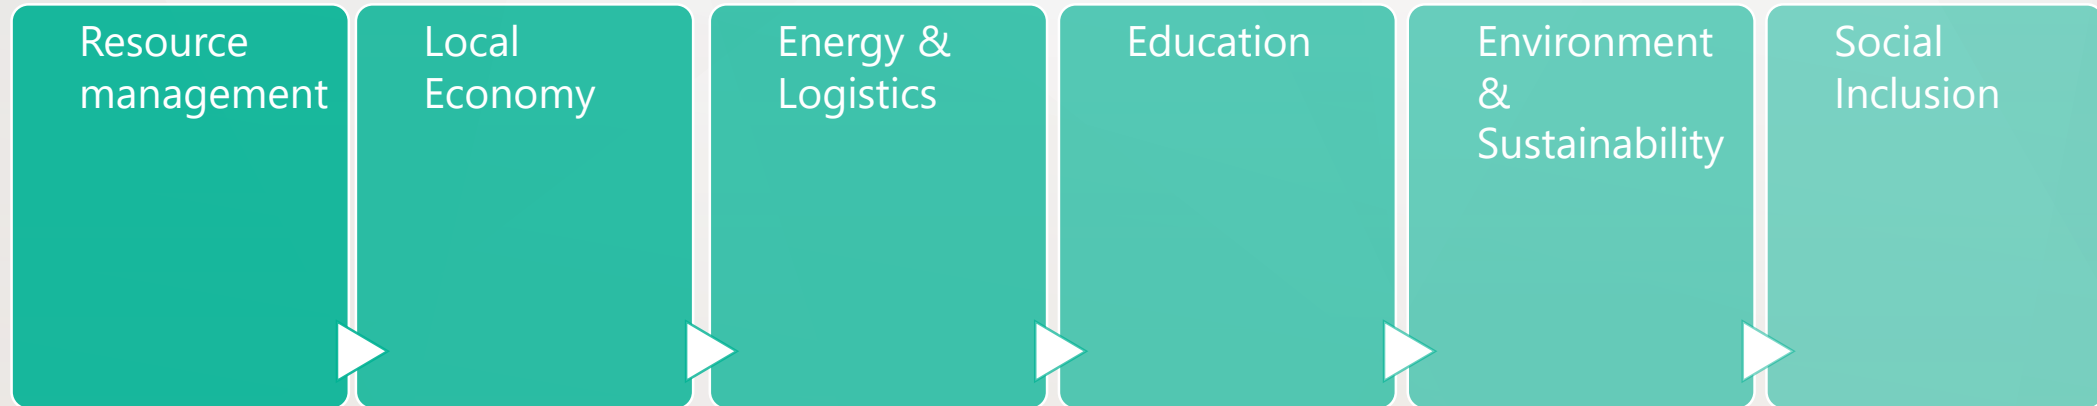

T4HD is a Social Enterprise focusing on providing support for existing and new organizations that share the same common goals.

# T4HD DEFINED

Provider of shared technology driven services to organizations that do not have the resources and knowledge to set up and run IT driven solutions to support their mission critical operations with positive outcomes to Humanity.

Focusing on:

# T4HD OBJECTIVES

Make technology work for EVERYONE

SUPPORT local industry and services ecosystem

Recycle HUMAN resources for new age of work

Convert companies to operate SUSTAINABLY

Create conditions to keep people in their HOME town

Enable TRUST and cooperation between Social & Economic communities

# A NEW PERSPECTIVE

Technology has been the **engine of innovation** in a cultural context that nurtures solutions of business relevance. This situation conditions entrepreneurs to focus exclusively on ideas that are financially viable.

Technology has grown exponentially but in many ways in complete **misalignment** with **human needs** and the environment necessary for humanity to flourish.

It is easy for innovators and engineers to fall **in love** with the technology for what it is.

It is necessary to fall in love with the greatest **causes of humanity** to use technology to make it a reality

Thank You!
